

Our goal at Moving Pixels is to offer our clients the best design solution that meets their needs and exceeds their expectations. We accomplish this by establishing a positive rapport with our clients through effective communication and design process that bring about positive results, resulting in projects that are in scope and completed on time.

Our portfolio includes recent examples of our most interesting creations to date. We take great pride in creating uniquely designed websites, banners, posters, package designs, logos and advertisement that are both pleasing to the eye and effective in their design purpose. Our graphic and layout design tools include programs such as Adobe Illustrator, Photoshop, InDesign, and Flash. By utilizing Maya, 3d Max and AfterEffects, we are able to create amazing animated videos, and we are able to create effective and stable websites using HTML, CSS, WordPress and PHP.

ABOUT US

Soda City Movers hails from Columbia, SC (aka the Soda City -- hence the name). We're working hard to change the face of local moving in Columbia with a strong commitment to customer satisfaction and our community.

We believe that moving to a new home should be exciting and fun, which is why we want to take over the heavy lifting -- literally. We provide a great mobile app experience with simple pricing and no hidden fees.

HOW LONG WILL MY MOVE TAKE?

Home Size	PH	Estimated Total Hours
1 Bedroom	1-2	2-3
2 Bedroom	2-3	3-4
3 Bedroom	3-4	4-5
4 Bedroom	4-5	5-6
5 Bedroom	5-6	6-7

SERVICES WE OFFER

- Residential Moves:** Whether you are moving from a small apartment down to a large house or into a new home, we have the expertise needed to make your move enjoyable.
- Office Moves:** Relocating an office is not an easy task. We can help create an efficient move plan to minimize impact on your business.
- Labour Services:** If you need help loading/unloading a rental truck or changing contractors, or just rearranging your home, we can provide the muscle.
- Plasma Moving:** We can move your plasma, too - including weight, body panels, and grand pianos. We're equipped with "extra hands" to make the process more safe and efficient.
- Packing Services:** No time to pack yourself? Let us do the packing. With our packing service, we'll provide the materials, and we never charge for travel.

Let's get moving! Contact us today for a quote and honest estimate.

CALL US TODAY! (803) 835-0044 **OR** SCAN HERE

HOW TO BUY AN ACNE LIGHT

When it comes to choosing an acne light, you have two decisions to make...

1 HAND-HELD OR TABLE TOP?

Choose Hand-Held
if you have mild inflammatory acne.

Choose Table Top
if you have moderate to severe inflammatory acne.

2 BLUE AND RED LIGHT SEPARATELY, OR TOGETHER?

Choose Blue and Red Lights Separately...

- For maximum strength treatments.
- For moderate to severe acne.
- When you want to see light therapy for more than just acne.

Choose Blue and Red Light Together

- For effective acne treatment with maximum convenience.

3 WHAT NOT TO BUY Do not buy:

Any product that is disposable. Light therapy should be a one-time investment.

Any light that requires replacement heads. Light therapy products should not need to be frequently replaced.

Any light that requires replacement batteries. Recharging expenses don't make any sense.

Any light that relies on topicals for its effectiveness. Light therapy works all by itself!

ENGLISH LANGUAGE ARTS

Follow-up About Your School Network

About a week ago, I shared information with you about wireless networking and better Wi-Fi performance for schools, and I wanted to follow up with a couple of important questions.

We've been hearing from many schools that they're not getting fast and reliable performance from their Wi-Fi networks, and they're struggling to keep up with rapidly increasing demand for wireless capacity. These challenges make it difficult for them to deliver the best educational resources while supporting a large number and variety of mobile devices and technologies that students and staff are bringing to school every day.

DOES THIS SOUND FAMILIAR?

My company, **Informis Inc.**, works with schools and businesses across a wide range of industries to solve the problems they've been experiencing with the performance and reliability of their Wi-Fi networks. Most recently, we've installed wireless systems in the **New Albany** and **University** school districts in Ohio.

Our experts specialize in bringing the power and reliability of next-generation wireless technology to meet current and future technology needs. We can deliver outstanding, enterprise-class wireless performance while making your school network incredibly easy to maintain and much less expensive to install and manage. We can upgrade your existing network, install an entirely new network, or even help you build an all-wireless campus that is a model for student safety, educational quality, and operational efficiency.

Does this SOLUTION SOUND interesting to you and your staff?

I would be happy to set up a call or an appointment with you or your IT staff to learn more about your unique campus needs and any technology challenges you may be facing. I would be glad to offer free strategic consultation and help you explore some of the latest in affordable and high-performance technology solutions that can give your school a technological edge.

Please Contact me at Your earliest CONVENIENCE, and I would be Happy to Help. Thank you for Your time and Consideration.
